"Words cannot express how thankful we are to the Spirit of Courage program. A very uncertain situation was made so much easier with the help provided. Receiving help in the form of gas cards took away the worry of the cost to and from appointments and allowed me to continue treatments."

- JEH Cancer Center Patient

"Thank you for helping my mother feel so much better about herself while undergoing treatments. She was able to get a wig and help with appearance related side-effects. It has all made such a difference in her outlook and really lifted her spirits."

- Family Member, Brain Cancer Patient
